## SmartStaffing Guidebook

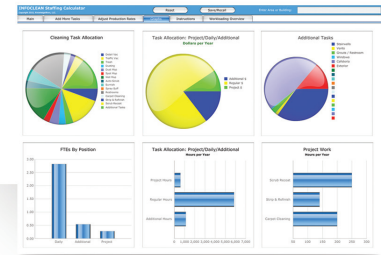

ISSA's SmartStaffing Bidding and Estimating Guidebook complements InfoClean 2.0 software. This important guide details a useable framework to simplify the workloading process and assist you in determining whether you have the "right" staffing levels. SmartStaffing's intuitive four-step process simplifies the bidding for building service contractors and provides in-house managers the information needed for budgeting.

This NEW guidebook includes helpful information on APPA, IFMA and BOMA rating systems, effective measuring tools, data gathering worksheets, the proper way to write a scope of work and how to establish a "zero based" budget.

## InfoClean 2.0 Simplifies Workloading and Estimates Staffing Levels

This complete software package features everything you need to workload your facility, including these NEW features:

- Easy-to-use tab based interface
- Updated ISSA 540 Cleaning Times
- Zone and Specialist Cleaning System modules
- New return on investment (ROI) application to cost justify cleaning equipment investments
- More entries for customized cleaning tasks
- Single tab dashboard with 3 pie charts and 3 bar graphs for boardroom presentations
- Complete FTE summary area to define staffing levels by daily, project and additional tasks
- Worksheets for collecting facility data

## Accurate Data, Simplified Budgeting

The NEW InfoClean 2.0 is an intuitive and amazingly powerful software program that strips away complexity and simplifies workloading. In just minutes, you can generate multiple scenarios to get the answers that you need—all backed by accurate data and industry best practices.

With InfoClean 2.0, you can visualize the impact of your next move before you commit to it! InfoClean's unique blend of power, simplicity, and agility enables you to respond more decisively—and strategically—to the challenges you face.
