Introducing a Better Way to Evaluate Cleaning Costs

INFOCLEAN[®]

EASY WORKLOADING

International Edition

Better Information, Better Decisions

Intuition has its place, but when it comes to staffing and a budget, knowing the facts leads to smarter decisions. **InfoClean** is a fast, flexible staffing tool that strips away complexity and simplifies workloading. In just minutes, you can generate multiple scenarios to get the answers you need—all backed by accurate data, rather than hopeful guesses.

InfoClean Answers Your Workloading Questions Quickly and Easily:

- ✓ How long will it take to complete a task or clean an area?
- ✓ What happens to my bottom line when I add or subtract space?
- ✓ How does changing task frequency affect cost?
- ✓ What will a wage increase do to my overall budget?
- ✓ How do I identify the best maintenance methods?

If You Are a Building Service Contractor or Facility Management Professional, InfoClean Can Help You.

This complete software package features everything you need to workload your facility, including:

- Powerful, flexible tool for estimating staffing and task frequencies
- Ability to customise to your facility's unique needs
 - Metric system of measurement
- Multiple currency options for use in any country

Fast and Flexible Interface
